

KODAK PROFESSIONAL
Inkjet Photo Paper, Metallic / 255g

Next-generation metallic prints

The latest printer and ink technology
The next-generation KODAK PROFESSIONAL Inkjet Photo Paper, Metallic / 255g allows users to produce stunning metallic prints previously only available in a traditional darkroom.

Metallic finish
The metallic, high gloss finish duplicates the characteristics of the KODAK Endura Metallic paper users have preferred for years.

Accurate reproduction
It has a larger color gamut and higher Dmax to ensure that color captured in-camera reproduces more accurately, while producing deeper, richer blacks, an expanded dynamic range and additional detail in shadow areas. This paper is compatible with all leading dye and pigment photo inkjet printers.

FEATURES:

- Expanded color gamut and higher Dmax
- KODAK PROFESSIONAL backprint
- Engineered to lay flat with little to no curl
- Compatible with both dye and pigment inks

APPLICATIONS:

- Wedding, portrait, landscape and exhibition photography
- High-end retail and display graphics
- Corporate and home décor

KODAK PROFESSIONAL
Inkjet Photo Paper Metallic / 255g

Properties	Specifications
Material	PE gloss paper
Gauge	255 +/-7 microns
Gloss Level	> 130
Whiteness	>130
Printer/Ink Compatibility	Dye/pigment
Software Setting	The coating is engineered for more than 300% ink coverage. A photo gloss, satin or semi-gloss setting is recommended as a starting point. However, a custom ICC profile is ideal to ensure optimal results.
Light Fastness	Inkjet ink fading time is based on the inks you use and the print display environment. For light-fastness data contact the ink manufacturer.
Finishing/Post Processing	It is always recommended that you protect the printed side by mounting under glass, laminating, clear coating, or using photographic sleeves. This will help ensure image durability and stability. Pressure sensitive laminates provide the best bond. Applying the laminate by hand is not recommended.
Handling Recommendations	Avoid touching the coated surface and use cotton gloves when handling inkjet coated materials. Rolls of Kodak inkjet media come with the coated side facing out.
Ideal Storage Conditions	70° F (21° C), 50% R.H. (a controlled environment is recommended); store in original packaging
Shelf Life	1 year from the BMG ship date when stored in proper conditions.
